9	Waste Products				
9.1	Amount of Hazardous Waste Manifested for Disposal		120	165	Emera companies are focused on reducing waste at its source and minimizing the amount on non-hazardous and hazardous waste that is produced and in need of disposal. All waste is managed and disposed of in accordance with applicable regulations and at approved facilities. As Emera's Sustainability Program continues to improve, efforts are being made to improve data collection related to waste metrics. In 2019, Emera companies disposed of approximately 165 tonnes of solid hazardous waste and 38,000 Litres of liquid hazardous waste. This included approximately 121 tonnes of solid PCB and 5,600 litres of liquid PCB waste.
9.2	Percent of Coal Combustion Products Beneficially Used		4%	18%	In 2019, Emera companies produced a total of 405,327 tonnes of coal ash, of which approximately 18 per cent (73,300 tonnes) was repurposed for other industrial uses. Emera's Tampa Electric produced 80,458 tonnes of gypsum, of which 96% was beneficially reused.
